TEACHING AND  
RESEARCH  
EXPERIENCE

Health Communication and Sustainable Development Research Center, Tongji University  
**Research Assistant**, Supervisor: Prof. Chen Jingxi, November 2023 ~ Present.

- Designed and conducted a mixed-methods study on tobacco control among adolescents, focusing on the cultural practice of 'cigarettes as gifts'.
- Performed advanced statistical analyses using SPSS, AMOS, and R Studio.
- Co-authored and revised research manuscripts, contributing to the project's dissemination at national conferences.
- Led interviews and experiments investigating doctor-patient communication, providing insights into health communication barriers among socially vulnerable populations.
- Participated in the application and research of national and provincial-level projects as a core member of the research team.

School of Journalism and Communication, Renmin University of China

**Research Assistant**, Supervisor: Dr. Ma Xiaofen, September 2023 ~ September 2024.

- Conducted data analysis, including structural equation modeling, using the R lavaan package.
- Designed an interview plan and facilitated data collection through semi-structured interviews.
- Managed research projects, organized and synthesized reports and press materials on international communication.
